TOO GOOD A HORSE FOR WINTER RACING

A GLOOMY DAY AT ELIZABETH-FOUR FAVORITES

WIN. The Dwyers' brown colt Fordham won the first race at Elizabeth yesterday, and was retired for the winter en a comfortable pension of oats and hay. His redirement was forced. He has done no wrong. His offence was his confessed superjority to the class of horses now in training. He was sacrificed to save the fields entered against him. This is a sad commentary on winter racing. As the snows and sleets of December approach, class and quality on the turf are descending lower and lower. A good horse cannot race because he is a good horse; because selling-platers must have a chance. But winter racing is

Fordham had only Civil Service and Tipstaff to beat, the ring laid from 8 to 1 to 4 to 1 on him. He was not liberally backed at that price, as racegoers at this season are not in the habit of buying money. A poor start in the second race caused the defeat of the favorite Arab. Coldstream, who was backed by his owner for a place, led all the way, and was greatly

surprised to find himself alone at the finish. Meriden and G. W. Cook were withdrawn from the third race, and the winner turned up in Martin Russell, a slight favorite over Wheeler T., who ran second.

Trestle galloped off with the fourth race, his light weight and a fondness for deep mad giving him a great advantage over the Hop filly, Lishmony and believer.

The attendance was not large and it is not easy to see how the day could have been profitable to the New-Jersey Jockey Club. A few bright, cheerful days are needed to eroud the quarterstretch. With such weather as this all hands had better quit.

> THE THIRD DELAY THIS WEEK ON THE BRIDGE. The patrons of the Bridge cars were in a state of mind little short of fury at about 8 o'clock yesterday morning on account of a delay of an hour and sixtee minutes to the trains. This was caused by a locomo tive jumping the track on account of the failure of a switch to work properly. A few trains were drawn over the Bridge by locomotives in the interval, but some 12,000 people had to walk. The indignation against the Bridge officials was heightened by the fact that there were delays in running the trains both on Monday and Tuesday at about 5 p. m., when travel is especially heavy. These two blockades were caused by the negligence of brakemen. C. C. Martin, superintendent of the Bridge, said that these delays were the first in three months, and that it was inevitable that they should happen at times, although the service on the Bridge was the best in the world.

THE NEW MINISTER FROM VENEZUELA.

SKETCH OF GENERAL N. BOLET-PERAZA, TH OPPONENT OF GUZMAN BLANCO.

General N. Bolet Peraza, the newly appointed Minister to the United States by who was a delegate to the International Congress, was born in Caracas in 1838. At the age of seventeen ne entered the Federalist army and was engaged in the civil war against the Centralist party for five years Centralist Government. In 1876 he was the first to raise his voice against the Guzman Blanco Government, taking a leading part in the revolution which drove Blanco from the country. He was afterward appointed secretary for State under President Alcantara, and was serving as such when Blanco returned and su ceeded in regaining control of the Government. Upon Blanco's return, General Bolet-Peraza went to Curacoa where he remained for a year and a half. 1880, he came to this country. Shortly after his arrival here he founded "La Revista Illustrada de Nueva York," which he has since conducted.

The newly appointed Minister at his home, No. 65 Columbia Heights, Brooklyn, said to a Tribune re-

On the 26th of October last the people of Caracas held a mass-meeting and pulled down the statues of Gurman Blanco, who had caused them to be erected while he was in power and in order to satisfy his vanity. On the same day the people of the cities of Valencia, Cludad Bolivar and La Guayra also pulled down the statues of Guzman Blanco that had been erected in those cities. The Government of Venezue the people and accepted the resignation tendered by Blan the people and accepted the resignation concerns of the Plenipotentiary in Europe, and our beautiful cities show no longer the emblems of a shameful tyranny. The government of Dr. Rojas Paul, who officially sanctioned the popular acts, is supported by every good citizen and by all the political parties. The movement of the 26th of October was a popular one and peace has not been altered. The Congress, which is about to meet soon in Caracas, will no doubt be inspired by the general scattment now prevailing in the country, and which involves the revalidation of the Federal Constitution of 1864.

I have good reasons to expect that the relations be-

tween this country and Venezuela will be more cordial and friendly than heretofore, as the Government of my country is inspired with the most noble feelings toward the States, and I can say that my acts will be conducted with a view to the welfare of both nations.

NO "CORNER" IN COTTON OIL CERTIFICATES. Under the decision of the Reorganization Committee of the American Cotton Oil Trust that deposits of certificates might be withdrawn at any time, 200 shares were withdrawn by depositors vesterday. Over 31,000 shares were deposited, and the net amount in the hands of the Central Trust Company at the close of business was 181,000 shares. A majority of the certificates is less than 211,000 shares and it is expected that the deposits will exceed this sum in a few days, although the time was extended to December 2. The action of the committee was a disappointment to speculative holders of cotton oil certificates who had specialities holders are the practical "locking up" of a large part of them would result in a sharp corner. The intended manipulation was defeated by the permission given to owners to withdraw deposits at their option. It is considered probable that the deposits will increase rapidly on this account.

Enlarged and Printed in New Type.

SINCE 1873, when ST. NICHOLAS FOR YOUNG SPOLKS was begun, it has ied all magazines for buys and girls. Nothing like it was known before, and to-day, as the Chicago "Inter-Ocean" recently stated, "It is the model and ideal juvenile magazine of the world." Through its pages the greatest writers of our time are speaking to the youth of two great nations, and the best artists and engravers are training the eyes of boys and girls to appreciate the best in art. There was only one way that Mrs. Mary Mapes Dodge, its editor, could make it better, and that was by making more of it, and so beginning with the seventeenth volume (November, 1889) ST. NICHOLAS was enlarged, and the magazine is now printed in new and clearer-faced type. During the coming year, among the many special features to be published
